Come Kick off the State Blasting Conference with UK's ISEE!

About UK ISEE:

The University of Kentucky ISEE chapter was formed in 2007. In 2010, we began our annual Clay Shoot fundraiser. We began this fundraiser to provide funding to the organization as well as kick off the State Blasting Conference in Louisville, Kentucky. The funding will send student members of the organization to the National ISEE Conference held annually, as well as allow us to participate in other events throughout the year like the annual float trip with the Missouri Science and Technology Chapter of ISEE, industry tours, and community outreach opportunities.

Changes due to COVID-19:

Due to the current pandemic and in order to remain as safe as possible, this event will be enforcing protocols including: individually packaged food, social distancing, required masks (provided), sanitizing stations, and sanitization of common areas and shared equipment, as well as any precautions put in place by Elk Creek Hunt Club and Winery.
